Italy has an excellent road and highway network that will allow you to enjoy all the famous sites, and give you the freedom to uncover some undiscovered treasures as well. This guide is aimed at the traveler that enjoys the independence and comfort of their own vehicle. We have included information you'll need for a self drive holiday in Italy, from renting a car, rules of the road to some great ideas for touring the different regions of this unique and wonderfully varied country.

## Tips in Driving In Italy

Driving in Italy can be a wonderful experience, and in some cases it's a pure necessity. Here are a few tips to help you acclimatize to driving in Italy, and help make your self-drive holiday the best that it can be.

Familiarize yourself with the road signs and parking rules.

Drive on the right hand side of the road. The driver sits on the left hand side of the car.

Italian drivers are competent and fast. Do not be daunted by aggressive driving, instead be confident and you'll fit right in.

When you collect your car rental, familiarize yourself with the car's controls.

Types of roads in Italy:

- **Autostrada:** Motorways and freeways
- **Major Roads:** Dual carriageways and highways with more than one lane in each direction and generally fast moving
- **Minor Roads:** Narrow, winding roads with one lane in each direction and slower moving traffic
- **White Roads:** Narrow, dirt or white gravel roads through the countryside. Known locally as 'Strade Bianche'.

The center lane of a three lane highway is for passing or overtaking. Slower traffic drives on the right lane.

Be cautious on narrow winding roads on routes such as Cinque Terre and the Amalfi Coast. Most of the small towns on these routes have little or no parking, some do not permit cars at all so park your car outside of the towns and see the sites on foot.

# Driving Laws in Italy

- Drivers must carry proof of insurance and domestic drivers license and registration papers at all times. An International Drivers License (IDL) is mandatory and functions as a translation of your US drivers license and may be obtained at American Automobile Club or the National Auto Club
- Speed limits:  
130km/hr (80miles/hr) on highways (autostrada), 110km/hr (68miles/hr) on highways when wet.  
110 km/hr (68miles/hr) on dual carriageways, 90km/hr (56miles/hr) when wet.  
90km/hr (56miles/hr) on open roads, 80km/hr (50miles/hr) when wet.  
50 km/hr (31 miles/hr) inside cities regardless of weather conditions.
- Hefty fines can be issued for speeding offenses, and police have the authority to collect fines on the spot. Speed cameras are set up in many places, so if you're caught speeding the fine will be posted to the car rental company, who will then pay the fine with your credit card used at the time of collection.
- Child Safety: Children under the age of four must be seated in an approved safety child seat restraint, and children aged 4 to 12 must be secured in a suitable child restraint while seated in the front seat.
- When driving on the autostrada, freeways or highways, you must drive with your headlights on.
- It is illegal to talk on a mobile phone while driving in Italy.
- Drunk driving is illegal. The maximum blood alcohol level is 0.05, and DUI drivers can face hefty fines or imprisonment so be smart, do not drink and drive.
- An emergency triangle must be carried in the vehicle at all times.

## Insurance

Car Rental companies in Italy will normally include:

- **Third Party insurance:** compulsory insurance and will be included in your car rental rate. This covers you for other people's injury and damage to their vehicle.
- **Collision Damage Waiver (CDW):** this limits your financial liability for damage to the rented vehicle, and is normally included in prepaid car rental rates. Rentals are normally subject to liability excess, which can be reduced at the time you collect your rental car.
- **Theft:** this limits your financial liability for the loss or theft of the rented vehicle and is generally included in prepaid car rental rates.
- **Fire and Liability:** this limits your financial liability for bodily injury or death, and is normally included in prepaid car rental rates.
- **Personal Accident Insurance:** this covers the driver for personal injuries and is generally not included in your car rental rates. It is considered an optional extra that you can take upon collection of the car.

## License Requirements

An International Driving license is recommended for American drivers license holders. An International Drivers License (IDL) functions as a translation of your US drivers license in ten different languages and may be obtained at American Automobile Club or the National Auto Club International. Make sure that you take your American license with you as well. Car rental companies will require that drivers have held a full license for at least one year.

## Min & Max Age Requirements

**Min Driving Age:** 21 – some suppliers allow drivers from 18 years but apply a young driver's fee.

**Young Driver's Surcharge:** Drivers aged 18 years may be charged from €22 per day, drivers 19-24 years may be charged from €15 per day.

**Max Driving Age:** There is no maximum driving age in Italy with most car rental suppliers; however the max driving age for some car rental companies is 75 years. In these cases, aged drivers may be required to hold a letter from their physician stating they are healthy and fit to drive. Check with Auto Europe for further details.

## Road tolls & e-tags

The Autostrada system is privately owned, and drivers pay a toll to use it. You collect a ticket when you enter the Autostrada, and pay the toll once you exit. When you arrive at an entrance of the Autostrada, head to the gate marked 'Biglietto' (ticket), rather than the Telepass or Viacard gate. When you exit you can pay the toll at the Biglietto cards with either cash or credit card.

## Parking in Italy

Although parking may be hard to find in larger cities, everywhere else in Italy parking is relatively easy to find. In larger tourist areas there are numerous pay parking lots outside of the historic areas. Street parking is designated with signs, and coloured lines denote whether it's paid or free parking. Blue lines indicate pay parking, where a ticket machine will be close by to purchase a parking ticket to display on the car dashboard.

White lines or no lines indicate free parking. If the parking sign indicates that the parking time is limited you'll need to display a parking disc on the cars windshield, which shows the time you parked. Parking discs are sometimes included in your car rental; if not they can be purchased from tobacconists. Ask for a disco orario.

# Getting into Italy

## By Land

Italy is connected to mainland Europe through Austria, France, Switzerland and Slovenia. Some mountain passes are closed in the winter months, and sometimes in the spring and autumn, so the best road options are the main tunnels. The primary connections into Italy that are open year round are:

**From France:** the Mont Blanc Tunnel at Chamonix, connecting to the A5 for Turin and Milan. You can also drive into Italy from France along the French Riviera via the E80.

**From Switzerland:** the Grand St Bernard, the Gotthard and the new Swiss Lötschberg Base tunnels.

**From Austria:** the Brenner Pass which connects to the A22 to Bologna.

# Accommodation Ideas

## Motorhomes:

All the convenience of accommodation and transport in one! Rent a fully equipped motorhome from Auto Europe. Call us for up to date models and rates.

## Hotels:

There are literally thousands of hotels and pensions in Italy, so you'll have plenty of options to choose from. Hotels are charged according to class, season, availability and locality, and are generally rated from 1 to 5 stars. For a full list of all Italian hotels and pensions, see the full list published by the Italian State Tourist Board.

## Bed & Breakfasts:

Be welcomed by families that open their homes to guests, and who will be more than happy to impart their knowledge of the local areas and customs. The rooms are normally slightly smaller than guest houses or hotels, but this could be one of the cheapest and friendliest ways to tour Italy.

## Villas:

Live like a king (or queen!). Enjoy the laidback lifestyle and live true Italian ways

## Farmhouses (Agriturismo):

Experience rural Italian life and a slow paced holiday, stay in a room in a farmhouse in the countryside and enjoy the scenery, meet the local people and sample the regional food. This is becoming an increasingly popular option for holidays longer than 7 days, since you can really get to know the 'true' Italy. And this is often a cheaper option than staying in city hotels.

## Camping & Caravanning:

There are over 1,700 official campsites in Italy, and many of the larger campsites provide tents or caravans to rent.

## Youth & Backpacker Hostels:

The Italian Youth Hostels Association runs over 100 youth hostels over Italy. In the summer months it's a good idea to book a couple of weeks in advance to avoid disappointment.

## Alpine Huts:

Perfect for mountain hikers, walkers can stop in for refreshments, meals and an overnight stay, usually with an alpine farmer. Simple dwellings that are generally only open July to September.

# Climate & Weather

The north of Italy is much cooler than the south, since this region is further from the equator as well as the higher altitude. Summers are warm in the northern mountains and winters are very cold, producing the best snow and ski conditions in the early months of the year.

The southern tip of Italy dips into the Mediterranean Sea, and has hot, dry summers, with winters being moderately temperate. In between, summers can be very hot in some regions due to the hot winds from Africa (sirocco) and winters are cold, sometimes producing snow and fairly wet.

# Language & Useful Phrases

Italian is the official language spoken in Italy, while dialects are spoken in different regions. English, French and German are spoken in the main cities and tourist centers.

## Stay Healthy

Italian hospitals are public and offer free standard treatments for EU residents; however for non EU residence emergency assistance is given. North America does not have a reciprocal health care agreement with Italy. Your comprehensive travel insurance should cover any medical costs. Pharmacies and chemists carry most prescriptions, however it can be expensive, so it's best to have your scripts filled before you go, and carry these medicines along with a letter from your GP explaining your medical conditions.

Tap water is generally safe to drink, but avoid water where there is a sign 'Acqua Non Potabile' it means that the water is unsafe to drink. No vaccinations are required to travel into Italy.

## Stay Safe

Most visits to Italy are free of troubles, however, as with travel to any country there is the potential for dangerous situations. In major tourist areas and some big cities such as Rome and Naples, pickpockets and bag snatchers operate, so a money belt containing your valuables worn under your clothing is a good idea.

Keep your valuables out of view in your parked car to avoid potential smash-and-grab thefts. Do not make yourself a target by showing off expensive jewellery and cash in public. Keep your money and credit cards in a safe place. Respect the local customs and laws. Try not to leave anything in your car that will tempt thieves. The same as travelling in any foreign country, your common sense is the most valuable possession you can have.
