Touring the UK By Car

The United Kingdom consists of England, Scotland, Wales, and Northern Ireland, and has been a favorite destination for visitors from across the globe for centuries. Although small in size, the UK is widely varied in all of its aspects. The UK’s landscapes vary from wild moors, lush forest, mountainous terrain, craggy coastlines and pristine beaches. Its people are a unique melting pot of different cultures, each blended together with their own histories and traditions. The whole of the United Kingdom is full of heritage, historical monuments, ancient ruins, magnificent castles and cathedrals and brilliant gardens and parks. The cities of the UK are bustling, full of life, fantastic local cuisine, great nightlife, museums and galleries.

With so much to interest every traveler, a self drive holiday is the perfect way to see as much of the UK as you wish. The UK has an excellent road network that will take you to all the famous sites, as well as allowing you the freedom to uncover some undiscovered treasures as well. This guide is aimed at the traveler that enjoys the independence, comfort and flexibility that comes with their own vehicle. We’ve included information you’ll need for your self drive holiday, such as the rules of the road, rental FAQ’s, even congestion charge information, as well as some great ideas on touring the many different regions in the United Kingdom.

Tips in Driving In the UK

- Drive on the LEFT hand side of the road. The driver sits on the right hand side of the car.

- Familiarize yourself with your rental car and its controls before you leave the depot.

- Observe the speed limits. Speed cameras, hand held devices and portable speed detection devices are used by patrolling police to catch speeding drivers, and hefty fines are issued for excessive speed.

- Don’t Drink and Drive! The maximum blood alcohol level is 0.08%, and DUI drivers can face hefty fines or imprisonment. So be smart, don’t drink and drive.

- Be aware of U-Turners. Drivers are permitted to execute a u-turn or a 3 point turn on any UK road unless it’s expressly forbidden.

- When driving rural roads, be patient. You may get stuck behind a slow moving vehicle but don’t try to overtake on narrow winding roads.

- Some country roads are too narrow for two cars to pass, so make use of the shoulders, where one driver can move to the side of the road and give way to oncoming traffic.

- Keep your headlights on during the day, especially on country roads and in foggy or misty conditions.
Driving Laws in the UK

- Unless otherwise indicated, the speed limits in the UK are:
  - City: 30mph
  - Country roads: 40-50mph
  - Single Lane Highways: 60mph
  - Double Lane Highways: 70mph
- Seat belts: You and your passengers must wear a seat belt at all times, including children over the age of 14.
- Child Safety: Children must be properly secured in an appropriate Child Safety Seat:
  - * Up to 30 lbs (birth to 9-12 months): Rear-facing baby seat.
  - * 20—40 lbs (9 months to 4 yrs): Forward facing child seat.
  - * 35—50 lbs (4-6yrs) : Forward facing child seat or booster seats.
  - * 50—80 lbs (6yrs and up): Forward facing child seat or booster cushions.
  - * Up to 11 years and under 54 inches: children must be seated in a child seat booster cushion or seat.
  - * 12 years up: a seat belt must be worn.
- It is illegal to talk on a mobile phone while driving in the UK.
- Motorcyclist must wear a helmet.
- Park only where it’s permitted. Check to see if there are parking meters where you will have to ‘pay and display’ the parking receipt on your car’s dashboard. Otherwise you run the risk of heavy fines and clamping in major cities.

Insurance

Car Rental companies in the UK will normally include:
- Third Party insurance: Compulsory insurance that will be included in your car rental rate. This covers you for other people’s injury and damage to their vehicle.
- Collision Damage Waiver (CDW): This limits your financial liability for damage to the rented vehicle, and is normally included in prepaid car rental rates. Rentals are normally subject to liability deductible, which can be reduced at the time you collect your rental car.
- Theft Loss Cover: This limits your financial liability for the loss or theft of the rented vehicle and is generally included in prepaid car rental rates.
- Fire and Liability: This limits your financial liability for bodily injury or death, and is normally included in prepaid car rental rates.
- Personal Accident Insurance: This covers the driver for personal injuries and is generally not included in your car rental rates. It is considered an optional extra that you can take upon collection of the car.
Min & Max Age Requirements

Min Driving Age: Usually 21; however in some regions the minimum age is 25.
Young Driver’s Surcharge: Drivers aged 21-22 years may be charged from £15+tax per day, drivers aged 23-24 years may be charged £11+VAT per day.
Max Driving Age: The majority of locations in the UK do not have a maximum driving age, however there may be restrictions for drivers aged 70-75 in some regions. In some cases, aged drivers may be required to hold a letter from their GP stating they are healthy and fit to drive. Check with Auto Europe for further details.

License Requirements

A full driving license is required to drive in the UK. All drivers must have held a full valid driving license for a minimum of one year. North American residents are not required by law to have an international drivers license, although it is recommended since an international license holds more credibility with the local traffic police than your home driving license. Contact Auto Europe for further information.

Parking

In major cities, parking zones are differentiated by colored zones.
- Blue Zones: short term (1 to 1½ hours)
- Green Zones: longer periods (2 to 4 hours)
- Red Zones: parking not permitted at any time.

After parking restrictions have been lifted you can park on streets with single yellow line after 6pm, but you cannot park on streets with double yellow lines.

Car Fuel

Most vehicles in the UK run on gasoline, however many of the cars run on diesel. At gas stations, gasoline is sold as either Four Star at the red pump, or Unleaded at the green pump. There’s in increasing number of electric or electric-petrol combined and liquefied petroleum gas (LPG) available.
The congestion charge is a fee charged to those that drive their vehicles within certain cities and towns during periods of peak demand to help reduce traffic congestion and reduce pollution. So far in the UK, London and Durham currently charge congestion fees.

Since 2007, the London Congestion Charging Zone has included the areas of; Bayswater, Notting Hill, North and South Kensington, Knightsbridge, Chelsea, Brompton, Belgravia, Pimlico, Victoria, St James, Waterloo, Borough, City of London, Clerkenwell, Finsbury, Holburn, Bloomsbury, Soho, Mayfair and parts of Marylebone. The daily charge for driving or parking within these areas between 7.00am and 6.00pm Monday to Friday is £8. For more information, visit www.cclondon.com

Cross Border Fees and One Way Rentals

Traveling between England, Scotland and Wales:
Normally there are no additional fees to travel between these mainland countries, and one way rental will not incur an international one way fee between countries within the UK. However some suppliers may charge this fee. Travel to islands such as Isle of Man, Isle of White, Shetland Islands and Orkney Island is allowed with no additional charge, however travel to the Channel Islands will often incur an extra fee. One way rentals to these islands are not permitted. Check with Auto Europe when you book to find out further information.

Traveling between Republic of Ireland and Northern Ireland:
Depending on the supplier, car rental companies will sometimes charge a Cross Border Fee from €25-€30 to travel from the Republic of Ireland to Northern Ireland. Some companies require drivers attain written permission from the rental supplier to travel into Northern Ireland, as well as Wales, England and Scotland, and may face substantial fines to travel to other countries without permission. The cost to travel from Northern Ireland to the Republic of Ireland will vary depending on the car rental supplier and often depends on the length of the time spent abroad, and can range anywhere from nil to £135. Check the details of your car rental before you book to ensure that you’re aware of any additional charges.

One Way Car Rentals:
There may be additional charges to collect from one city and drop off in another within the same country, depending on the cities involved. Some companies will not permit international one way rentals from Republic of Ireland to Northern Ireland, and for one way rentals from Northern Ireland to Rep of Ireland fees vary anywhere from £100-£300, so before you book find out any other additional charges from Auto Europe. Remember that you may not be covered by insurance if you travel to another country without the car rental company’s permission.

Castles
Experience the splendor and magnificence of staying in an historic castle in the UK. It’s not every day that you get to wake in the grandeur of ancient tapestries, stone columns, high vaulted ceilings, spectacular gardens and lakes, right at your doorstep. Live like a king!

Self Catering
There is self catering accommodation all across the UK suitable for those that would like to come and go as they please, including self contained apartments, houses, cottages and caravans.

Bed & Breakfasts
One of the best ways to experience the United Kingdom is to stay at a Bed & Breakfast. Be welcomed by families that open their homes to guests, and who will be more than happy to impart their knowledge of the local areas and customs. The rooms are normally slightly smaller than guest houses or hotels, but this is possibly the cheapest and friendliest way to tour the UK. Enjoy a home cooked breakfast and friendly hospitality.

Guest Houses
Guest houses in the UK are usually larger than B&Bs even though they are still family run. Most have between 5 and 15 guest rooms. Often guest houses are purpose built so that the rooms are generally larger and the facilities are more generous than B&Bs. You can expect to pay about the same as a 3 star hotel but with a more cozy and comfortable atmosphere.

Farmhouse Holiday
A farmhouse holiday is a great way to meet the locals and is especially suitable for children. Leave the hustle and bustle of the big cities and towns behind and enjoy the everyday life on the farm.

Camping & Caravanning
There are hundreds of caravan and campsites across the UK, with the majority being open from May to September. Take the opportunity to enjoy the very best of the country and outdoors at its best.

Youth & Backpacker Hostels
There are over three hundred youth hostels across the UK, which range from basic accommodation to modern hostels.

University Dorm
Stay in great locations with simple furnishings in relatively cheap accommodation, in such hallowed halls as Oxford or Cambridge. This option is usually available over the holiday periods Easter and Christmas.

Holiday Camps
Holiday camps offer accommodation, food and a huge range of activities, normally all at an all-inclusive price. This is a great option for families, with activities for children, kids clubs and babysitting options usually available.
Stay Healthy
Your comprehensive travel insurance will cover any medical costs including medical evacuation. Make sure that your insurance covers you for the whole time you’ll be away and be clear on what is not included. In case of an emergency, go to your nearest hospital for treatment. For non-urgent ailments, go to the local medical center or NHS walk in center, where you will be cared for but you will be billed for the treatment. Vaccinations are not required for travel to the United Kingdom, but check with your GP before you travel for travel vaccination updates.

Plan for the continuing care of pre-existing conditions before you leave. Bring your medications in their original and clearly labelled containers with a declaration from your doctor describing your medical conditions and medicines needed. If you wear contacts or glasses, bring a spare pair or bring a copy of your prescription.

Pharmacies and chemists carry most prescriptions, however it can be expensive, so it’s best to have your scripts filled before you go, and carry these medicines along with a letter from your GP explaining your medical conditions.

Stay Safe
Traveling in the UK is not dangerous, but a level of caution should always be taken when touring in any foreign country. The majority of crimes tend to occur in the larger cities, such as London, where tourists can be targeted by crimes such as bag snatching and pick pocketing. The best advice is to keep your valuables close to your body and out of reach from potential thieves, avoid lonely streets out of hours and don’t flash your wealth and make yourself an obvious target.

Car break-ins, theft, smash and grab and vandalism on tourists vehicles can occur, but can be prevented by keeping valuables or bags out of sight, securely locking cars or using off-street supervised parking. As a precaution lock your doors when driving in the larger towns, especially after dark.

In the unlikely event of theft or loss, be sure to inform all your credit card companies as soon as you discover your wallet has been lost or stolen. Most credit card companies have toll free numbers to call if your cards are lost or stolen, and they may be able to issue an emergency replacement card or wire you an cash advance.
